dpf clamp & gasket
catalog
edition 20

Autogem Invicta is a leading, well established global gasket and hardware supplier to original equipment and aftermarket re-manufacturers. With manufacturing facilities in India and global distribution facilities working in conjunction with our plants, we offer a unique solution to our customers in Europe and North America. With over 5,000 products available to our customers we have the experience and know how to deliver your requirements.

We hope you find this DPF gasket catalogue useful but please note our offering is not limited to these gaskets alone. We also manufacture a wide range of internal gaskets, alternative turbo gaskets and a wide variety of other gaskets, clamps, hangers, brackets and fittings kits. We can make bespoke gaskets in all grades of mild and stainless steel as well as specialist materials like Inconel.

Our other expert ranges:

Emission Gaskets

Our formidable reputation is founded upon the most complete range of exhaust, catalytic converter and DPF gaskets available. Manufactured in a wide variety of materials and heat specifications we provide the total solution for emissions gaskets, be they at the manifold or at the end pipe. Many of the parts we make are bespoke for manufacturer customers and please do not hesitate to enquire about any specific gasket requirements that you may have.

Clamps

Still the most important category for exhaust fittings is clamps. We offer muffler clamps in 3/8", 5/16", M8 and M10 variations. All clamps can be supplied in mild steel or stainless steel. Our clamp offering also includes pipe connector clamps, circular clamps and various manufacturer specific OE style clamps. Clamps can also be supplied with standard, copper or thick nuts as per your requirements. In addition to our standard automotive and truck clamps, we also manufacture bespoke clamps for the industrial, agricultural and defense markets.

Hangers & Mountings

Now offering a supplemental range of EPDM and SBR hangers alongside our traditional rubber compounds we offer a wide variety of rubber and rubber to metal bonded bracketing solutions. In addition to this we have also introduced lighter aluminum to rubber bonded brackets as per the OE specification. Our full line coverage allows us to straddle both the North American and European markets in this sector.

Brackets & Kits

Kits have become one of the fastest growing categories in our range and we offer comprehensive solutions for both exhaust and catalytic converter kits. Many of these kits require premium quality gaskets in conjunction with the bolts, springs and nuts and this allows us to offer a fully comprehensive solution to your requirements. Our brackets go through vigorous welding processes and testing, ensuring the brackets you supply for the underside of the vehicle are 100% dependable.

THE AUTOGEM INVICTA TEAM

Adit Chopra, CEO

I'm delighted to introduce you to our export team here at Autogem Invicta. Alongside my brother **Prashant** and with the support of our factories in the Far East we have spent over 20 years building the business to the position of strength it now finds itself in. Our acquisition of Autogem in 2005 has helped the company expand tremendously and with the support of our fantastic Export team we continue to strive to be the global leader in our category.

We work in close partnership with the very best companies in our sector and with their increasing technological and logistical demands we find ourselves ever improving. Thank you for your continued support and thank you for choosing Autogem Invicta.

Angel Erdozain Acedo / Navarra-Spain

Having studied Economics and Management in Zaragoza, I went on to spend 23 fantastic years at the catalytic converter manufacturer AS,SL where I eventually grew to become one of their most senior sales people. In 2012, I established Interconsultancy.es where I have specialised working with some of the top European manufacturers in their respective fields, focusing on sales growth and a wide remit of commercial responsibilities.

Karolina Matwiejew / Kielce-Poland

I have over 5 years' experience working within the "European fittings" industry. I have travelled extensively over Europe and have dealt with some of the largest distributors and manufacturers of exhaust, catalytic converters and turbochargers. I am the newest member of the Autogem Invicta Team and I am delighted to join a company with such a strong reputation in its field. Whether it be fittings, kits or turbocharger parts I look forward to working with you.

Hiten Nagar, London Distribution Facility

I have been with Autogem Invicta for almost all my professional life, starting over 19 years ago in 2000. I have grown within the company and seen it flourish. Since 2008 I am pleased to have become involved in a number of export markets and key accounts.

With an interest in automotive parts, as well as a background in systems and IT, I help co-ordinate not only my own export sales but often those of other members of our team. Based at our distribution headquarters in the UK, I look forward to assisting you whenever required.

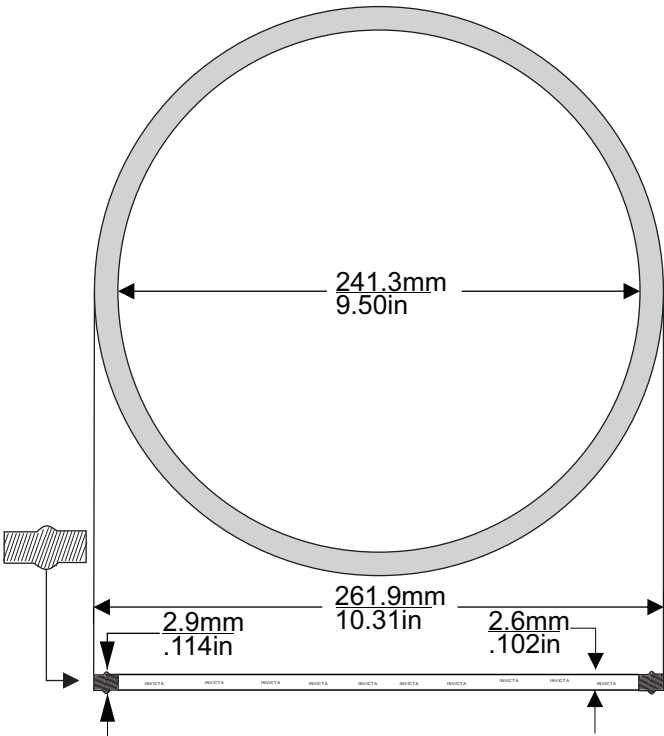

Garen Post, US Product & Catalog Specialist

I have spent over 44 years in the automotive aftermarket in various management, sales, marketing and product development positions. In 2005 I began to provide Autogem Invicta with OE research and catalogue services. Product management for the US market is now a significant responsibility of mine.

I was aware of Autogem Invicta's strong presence in North America; but unaware of their commitment to product, inventory and service. Their tremendous growth and market penetration is a direct result of this commitment.
